Grant Awards

On September 29, New Horizons received notification of a \$35,000 grant award from the Greater Washington Community Foundation. The funding will be used to purchase laptops, tablets, and teleconferencing services that will enable the agency to expand its virtual services to participants.

For 45 years the Greater Washington Community Foundation has been a catalyst for community change made possible through local philanthropic engagement. They are one of the leading advocates for our community as they influence and invest in and direct key strategies to accelerate meaningful and systemic change. New Horizons is grateful for their support.
